Financial Aid Decision Center

Product Vision
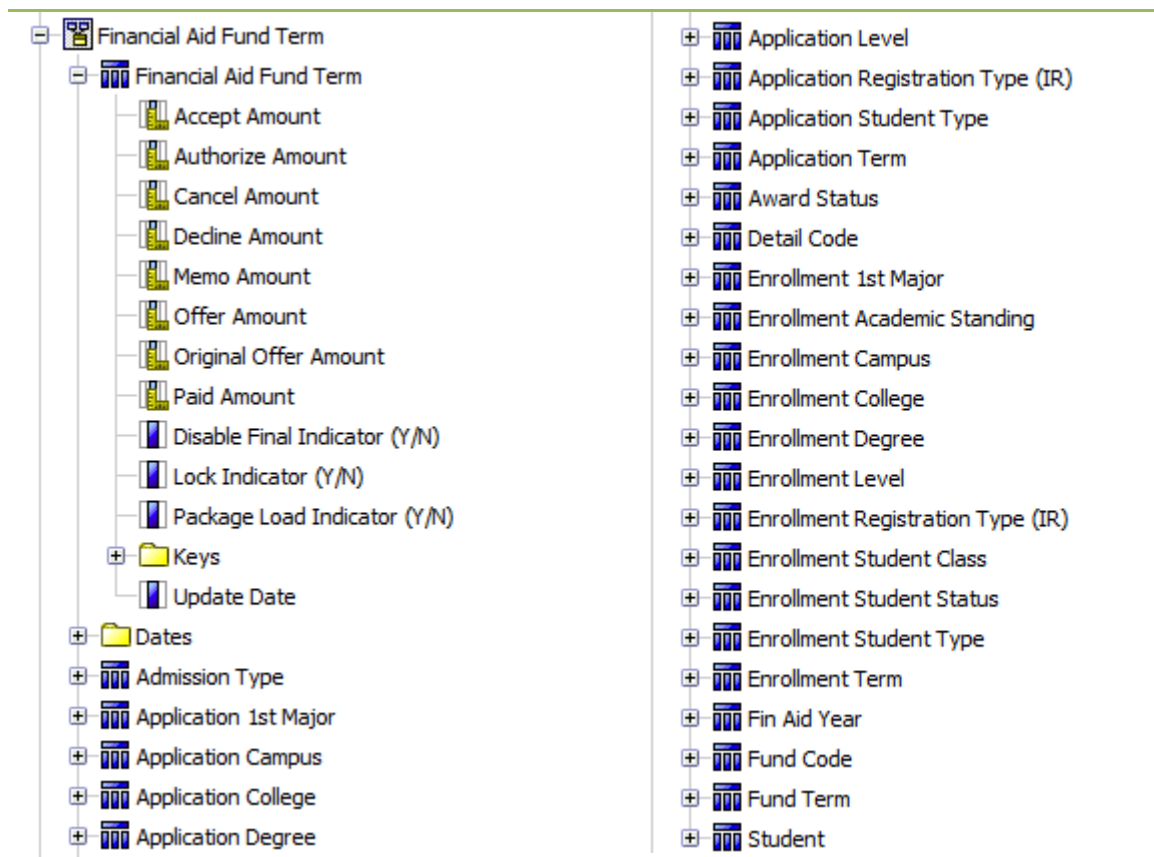

For:	*Enrollment Management, Financial Aid, and Schools*
Who:	*Desire a simple way to access, use, and understand Financial Aid data*
The:	*Financial Aid Decision Center*
Is an:	*Integrated source of Financial Aid data*
That:	*Provides easy to use information that spans multiple years and can be consumed in multiple ways (Reports, Ad Hoc queries Dashboards, etc...)*
Unlike:	*SQR Reports*
This Product:	*Will be dimensional at the detail level, automatically updated, secured, and certified*

New Products:

The **Financial Aid Decision Center** is intended to be used by the Financial Aid Office and leaders at the University to gain insight into the data around grants, loans, scholarships, family contributions, unmet need, student debt, etc. The Financial Aid data that will be brought into the warehouse will also help inform discussions around enrollment and student retention.

In the previous release, Cost of Attendance was added to the warehouse. This release, 4 additional fact tables have been added around the following subject areas:

- **Student Funding by Term –** Shows funding received by students in every term. Users can perform analysis in a number of different ways, including by the Student's Enrollment or Application information.
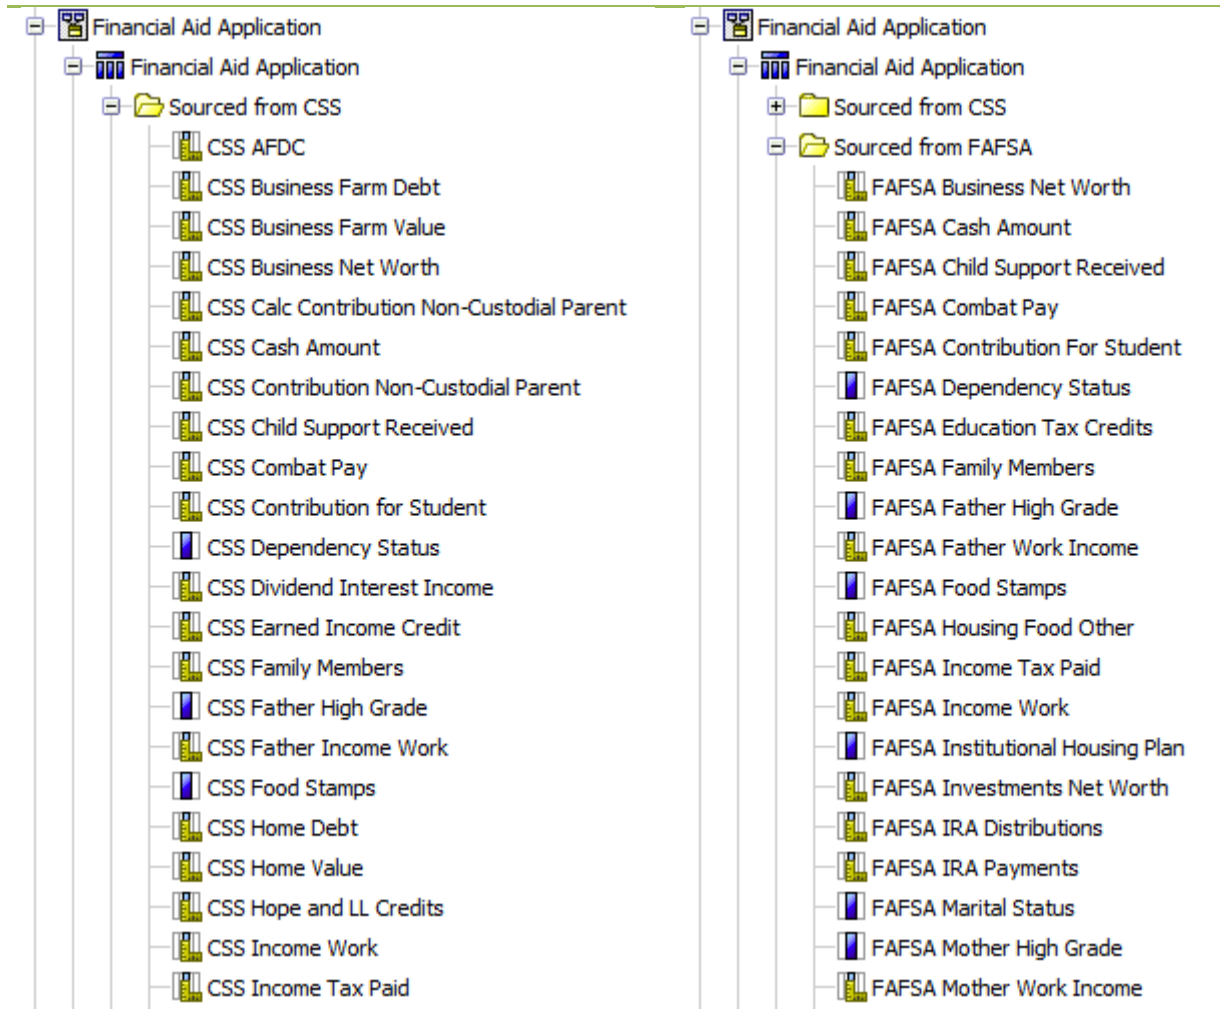

- **Student Funding by Year –** Shows the total funding received by students in each Financial Aid Year. Users can perform analysis in a number of different ways, including by the Student's Enrollment or Application information.

- **Financial Aid Application –** Shows financial aid applications from students in each Financial Aid Year. Contains more than 100 data points about student financial aid application from both from CSS (College Scholarship Service) and FAFSA (Free Application for Federal Student Aid).

- **Financial Aid Summary by Student –** Summarizes the financial aid activity by student by Financial Aid Year.

Availability:

- The BETA version is available to a select group of users in the Financial Aid Office.

Pre-Award Decision Center

Product Vision

For:	*Principal Investigators, Office of VP for Research (OVPR) and Schools*
Who:	*Desire a simple way to access, use, and understand Proposal/Pre-Award data*
The:	*Pre-Award Decision Center*
Is an:	*Integrated source of Proposal/Pre-Award data*
That:	*Provides easy to use information that spans multiple years and can be consumed in multiple ways (Reports, Ad Hoc queries Dashboards, etc...)*
Unlike:	*Manual requests for updates*
This Product:	*Will be dimensional at the detail level, automatically updated, secured, and certified*

New Products:

The **Pre-Award Decision Center** is an extension of the Principal Investigator's Dashboard where users will be able to view the status of award proposals submitted to different funding agencies. Users will also be able to stay informed about an award's setup status.

Summary					**17,405.00**		

Availability:

- The BETA version is available to a select group within the Office of the Vice President for Research.

Business Intelligence Services (BIS) Strategic Initiatives

Informatica upgrade:

- The extract-transform-load (ETL) tool that is used to build the data warehouse has been upgraded from PowerCenter 9.6 to PowerCenter 10.1. This upgrade was necessary to enable the Business Intelligence team to connect to more data sources, integrate data across different platforms, and put GW in a position where it can gain insight from the data collected by its various systems.
